

# SDET Assignment

**Task : To Automate the Below Scenario.**

**Scenario :-** All the users of City `FanCode` should have more than half of their todos task completed.

**Given** User has the todo tasks

**And** User belongs to the city FanCode

**Then** User Completed task percentage should be greater than 50%

**Note :-**

- You can use any language to write api automation/Framework.
- Fancode City can be identified by lat between ( -40 to 5) and long between ( 5 to 100) in users api

**Resources(APIs) :-** <http://jsonplaceholder.typicode.com/>
